 **EURO
CHILLER**[®]
INTERNATIONAL COOLING

Your **PROCESS COOLING** & **HEATING EXPERTS**

Founded in 1990 and part of the Atlas Copco Group since 2019, EUROCHILLER is an Italian company specialized in the design, manufacture and service of industrial cooling systems as well as water and oil temperature control units. Its headquarter, which plays the role of both product company and customer center, is located in Italy at Castello d'Agogna (PV), where about 100 workers are employed. Thanks to a consolidated know-how and a wide product portfolio for different industrial applications, EUROCHILLER offers its customers worldwide efficient, certified and tailor-made process solutions.

SAVE money, **REDUCE** energy costs, **RESPECT** the environment

As the cost of energy is becoming worldwide more and more significant, it is important to invest in energy-saving systems reducing their impact on the ambient and granting to the end-user a considerable reduction on his energy bills.

We work since ever on efficiency and look for solutions reducing energy consumption and lowering their impact on the environment. Our products and services are developed responsibly and are designed to work in harmony with the environment for long-term sustainability.

TAILOR-MADE DESIGN, accurate **SOLUTIONS**. Because **EVERY DEGREE** makes a **DIFFERENCE!**

We design systems that precisely meet our clients' short and long term business, operational and environmental requirements.

COMMISSIONING, MAINTENANCE & **MONITORING** services

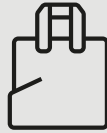

We provide a flexible range of service solutions in order to improve the reliability of the industrial systems by preventing the risk of breaks and downtimes. Thanks to our exclusive service centers, we're able to intervene promptly and efficiently.

APPLICATIONS

Eurochiller has developed over the years different solutions for industrial applications. Main fields of application are the following:

CAST

BLOWN FILM

PIPES & PROFILES

FAST MOULDING

INJECTION MOLDING

BLOW MOULDING

PLASTIC RECYCLING

THERMOFORMING

AUTOMOTIVE

TUNNELS
